

The new o.tel.o tariff - clever, inexpensive and prepaid

- **Calls in all German networks and in 32 foreign fixed networks only cost 9 cents a minute, and so does mobile internet**
- **Excellent D network quality with no basic monthly charge or contract**

Düsseldorf, 01 February 2010. o.tel.o is launching a new tariff called "o.tel.o Prepaid". The central attraction of this tariff is that subscribers get a standard rate of 9 cents a minute for diverse voice, data and messaging services in Germany - all of them in D network quality. Telephone calls from the D network to numerous foreign fixed networks are also possible for the same rate.

It couldn't be easier – o.tel.o Prepaid enables customers to make calls in Germany at a rate of only 9 cents a minute. Text messages to recipients in all German networks are also charged at 9 cents each and o.tel.o customers who miss a call can check their mailbox for voice messages free of charge in Germany.

3G-speed mobile internet is also available in the German domestic network for the same rate of 9 cents a minute.

Calls from Germany to 32 foreign networks are also possible for 9 cents a minute. These include European countries such as France, the United Kingdom, Spain and Poland, and also more distant destinations such as China, Russia, Thailand and Japan. Calls to foreign mobile networks are billed at EUR 1.49 a minute.

o.tel.o Prepaid will be available from 1 February 2010 onwards from retailers, service providers, wholesale partners and the online shop at www.otelo.de. The prepaid packages cost 9.95 euros for 10 euros of credit. Customers can also purchase prepaid cards for 4.95 euros with 5 euros of credit from the o.tel.o online shop.

Visit the website at www.otelo.de for further information.
